

Welcome HPDE 3 & 4 Drivers!

Your HPDE 3/4 Group Leaders for the weekend will be Chris Venturini, John Brandow, and Weston Pawlowski.

Driver Meetings

Please make sure that you are familiar with the event information found at <https://events.nasarockymountain.com/>. This is where you can find the most recent schedule include times and locations for our driver meetings. These will be where we will share safety protocols, on and off track procedures, as well as cover driving theory and technique. These meetings help to ensure that everyone has a safe, predictable, and fun weekend!

Car Technical Inspection

Make sure you have complete the tech inspection of your car prior to the first session of the day. Most drivers can self-tech their car or have it done at the track if need. Don't miss your first session of the day because you didn't get your car inspected.

Passenger Rides

Passengers are allows in HPDE 3/4. Passenger must sign a waiver and get a passenger wristband at Driver Information. Drivers with passengers are expected to exhibit near perfect driving. Going off-track or losing control with a passenger will result in you losing passenger privlidges.

Driver Etiquette

This is an advanced run group. Drivers are expected to have the appropriate level of experience when driving in this group. Drivers are expect to have good situational awareness and understand of what is going on around them. We expect drivers in this group to have knowledge of the NASA driving rules, to have respect for other drivers on and off the track, to have respect for the staff and corner marshalls, and to have a great attitude and desire to have fun.

We are passionate about motorsports and NASA and look forward to sharing our passion with you.

If you have additional questions please feel free to reach out.
